Fish-Friendly Car Wash

Are you planning a fundraising car wash?

Water that runs into storm drains goes directly into our lakes, streams, and Puget Sound with little or no treatment. Runoff from car washes is toxic to fish and other aquatic life.

Pierce County Public Works and Utilities' Surface Water Management Division offers two fish-friendly car wash options.

Sell Car Wash Vouchers

The Puget Sound Car Wash Association sells car wash coupons to groups for $2 each. The coupons can be resold for up to $8. The coupons are accepted at participating car wash locations around Puget Sound. Find out more at 1-800-509-WASH or www.charitywash.org.

Use a Fish-Friendly Car Wash Kit

Make your organization's next fundraising car wash fish-friendly by using a free, easy-to-use car wash kit from Pierce County Surface Water Managment Divsion. This kit uses a storm drain insert and a pump to send the dirty water to the sewer system or grassy area to infiltrate. Find out more at www.piercecounty.org/carwash.
