**RCW 18.27.110** No city, town or county shall issue a construction building permit for work which is to be done by any contractor required to be registered under this chapter without verification that such contractor is currently registered as required by law. When such verification is made, nothing contained in this section is intended to be, nor shall be construed to create, or form the basis for any liability under this chapter on the part of any city, town or county, or its officers, employees or agents. However, failure to verify the contractor registration number results in liability to the city, town or county to a penalty to be imposed according to RCW 18.27.110(7)(a). All provisions of laws and/or ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not give authority to cancel the provisions of any other state or local law regulating construction.
