

Fish-Friendly Car Wash

Are you planning a fundraising car wash?

Water that runs into storm drains goes directly into our lakes, streams, and Puget Sound with little or no treatment. Runoff from car washes is toxic to fish and other aquatic life.

City of Fircrest loans out fish friendly car wash kits for your fundraisers!

Use a Fish-Friendly Car Wash Kit

We loan out free, easy-to-use car wash kits. These kits use a storm drain insert and a pump to send the dirty water to the sewer system or to a vegetated area to soak into the ground.

For more information about how you can borrow a fish-friendly car wash kit for your next fundraiser, call (253)564-8900
