

ACTIVITY GUIDE

Introduction

I hope you had a chance to attend our summer activities and events. Every year we look forward to our annual line up of the Fircrest Pool Party, Strawberry Feed and Band Concert, Movie in the Park, Classic Car Show, and Fircrest Fun Days. This year was our first year planning and running the Annual Car Show without the Cruzaders Car Club. The car club had planned and run the show for over 20 years and had set the bar extremely high. We could not have done it without our sponsors. Thank you!

Congratulations to the Fircrest Amateur Swim Team for winning the 2018 South Sound Summer Swim League championships this year.

As you may have noticed, we have completed some great work in the parks this summer with the resurfacing of the Whittier Tennis Courts, and the installation of the new Fircrest Park Playground.

City Staff, the Pool and Community Center Steering Committee, and the City Council have been busy working with ARC Architects on the Pool and Community Center schematic design. The response to the online survey was excellent, with over 580 completed surveys. The Steering Committee has reviewed the survey results, discussed proposed options, and will present a recommendation to the City Council on what pool design to move forward with, and whether or not to proceed to the next phase with the Pool and Community Center, or just the Pool. The steering committee met on October 10th to finalize recommendations. ARC's presentation to Council and the recommendation from the Steering Committee will take place at the regularly scheduled City Council Meeting, October 23rd at 7:00pm.

It is a pleasure serving this great community.

Hope to see you in the parks!

WHY SHOULD KIDS PLAY SPORTS?

Sports, whether team-based or individual, are a great activity for children that provide a variety of benefits other than physical activity. Participation in sports can help build self-esteem and confidence, can motivate children to excel academically and can help build social skills. Participation also can teach children the benefits of goal setting and practice.

Children today spend less time outdoors than any other generation, devoting only four to seven minutes to unstructured outdoor play per day while spending an average of seven and a half hours in front of electronic media. As a result, child obesity has reached unprecedented levels.

It is imperative that we implement innovative strategies to reconnect our children and adults with the natural world, connect communities with green space, provide opportunities for outdoor recreation and play, and educate parents and caregivers about the important role the natural world plays in the life and development of us all.
