Re: Annual Rate Adjustment, disposal site fee increase, request for recycling commodity surcharge.

Dear Scott:

Enclosed you will find the following:

**1.** Letter from Pierce County for the disposal fee increase effective March 1, 2020. LRI will raise the rates from the current rate of \$164.34 to \$167.38 per ton, an increase of \$3.04 per ton, or 1.85%.

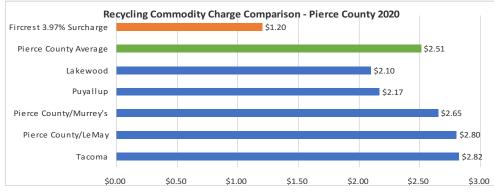

2. The Sept. – Sept. Consumer Price Index for figuring the Annual Rate Adjustment. The rate this year is 2.1 %. We then multiply that times 85% as allowed in the contract, resulting in an Annual Rate Adjustment of 1.79%.

**3.** An Excel Spreadsheet with the following:

Schedule 1. – Worksheet showing the effect of disposal site fee increase and how it gets applied to each level of service. Schedule 2. – Worksheet showing how the Annual Rate Adjustment is calculated and added along with the disposal fee increase to determine the new rates.

Schedule 3. - This shows the new "Schedule A" rates effective March 1, 2020. They are shown both with and without the 8.5% Fircrest Utility Tax and the 3.6% Washington State Refuse Collection Tax.

#### 4. Recycling Commodity Surcharge Request -

As referenced in our current contract, we have always relied on the revenue from the sale of the commodities collected in our recycling programs to help offset cost of operations. Average annual revenues from such sales 2005 to 2017 were \$26,421 per year. In 2018 and 2019 <u>WE HAD TO</u> PAY -\$32,307 & -\$47,767, respectively, to take it to

the recycling facility. We are in the 3<sup>rd</sup> year of a severe negative global market phenomenon that has not occurred ever since we began offering recycling in 1988. We are asking for a 3.975% surcharge to be placed on all base rates for 12 months beginning March 1, 2020. This will recover over the next year only the amount that we had to pay to the recycling facility over the past year, or \$47,767. The cost to customers for the most popular residential garbage service, a 64 gallon cart picked up every-other week, would be \$1.20 per month.. **Rate Sample** (Taxes not included)

Garbage Service Level	Pickup Frequency	Current Rate	Proposed Rate	Adjustment	Adjustment	Recycling Commodity
-		3-1-19	3-1-20	Amount	Percent	Surcharge 3.97%
12 gal garbage Toter	1 X per week	\$17.49	\$17.85	\$0.36	2.1%	\$0.71
24 gal garbage Toter	Every-other wk	\$16.26	\$16.59	\$0.33	2.0%	\$0.66
64 gal garbage Toter	Every-other wk	\$29.48	\$30.08	\$0.60	2.0%	\$1.20
1 Yard Container	1 X per week	\$104.63	\$106.93	\$2.30	2.2%	\$4.25

Subject: 2019-2020 Solid Waste Tipping Fees and Rate Setting Guidelines

Dear Mr. Rodgers:

On behalf of Pierce County Executive Bruce F. Dammeier, on August 30, 2019, I notified the County Council by letter of a proposed solid waste tipping fee increase. This proposal – prepared jointly by the Department and PCRCD dba LRI (the Company) and authorized by the County Executive – contained an increase of \$3.04 per ton, for a new tipping fee of \$167.38 per ton effective March 1, 2020.

Paragraph 16.11 of the Waste Handling Agreement outlines the Council's review process:

"...the County Council may hold a public hearing regarding the consistency of the proposed increase with the terms of this Agreement. If the County Council objects to the proposed increase on the grounds that the proposed increase is inconsistent with the terms of the Agreement, and such objection occurs within thirty (30) calendar days of receiving the County Executive's report, the County Council may request the County Executive and the Company to withdraw and resubmit the proposal."

The Pierce County Council took no action in response to the letter.

The 2020 rate proposal is approved as submitted, subject to further County Council action relating to review and adoption of the 2020-21 Pierce County budget. If any changes are required as a result of budgetary review, the Planning and Public Works Department will contact you shortly after the budget is adopted, to discuss the changes made to the 2020 tipping fee.

Please contact me if you have any questions.

Respectfully

Ryan Dicks

Sustainable Resources Administrator

### FIRCREST CITY COUNCIL AGENDA SUMMARY

# NEW BUSINESS: Refugee Resettlement Program ITEM 10A.

### FROM: Scott Pingel, City Manager

**RECOMMENDED MOTION:** I move to adopt Resolution No.\_\_\_\_, declaring an intent to grant consent for the relocation of refugees within municipal boundaries per United States Executive Order 13888.

**PROPOSAL:** The Council is being asked to approve and adopt a resolution granting consent to for the Federal government to resettle refugees within the municipal boundaries of the City of Fircrest.

FISCAL IMPACT: None identified.

ADVANTAGE: Allows refugees to be resettled in Fircrest.

**DISADVANTAGES:** None identified.

ALTERNATIVES: Do not consent to refugees being resettled in Fircrest.

**HISTORY:** After receiving the letter from DSHS in November, the City asked several questions of DSHS as well as other cities as to what they were doing with the request in the letter. The City of Pasco was the first to respond as to what they had learned further. The additional information provided in the attachments was provided to the City Council at the January 14, 2020 City Council meeting. At that time, the Council directed staff to draft a resolution.

This is an unusual circumstance where a longstanding federal program, coordinated through the states, has been modified by a Presidential Executive Order requiring consideration and action of the City Council in order for that program to continue within the community.

The U.S. Office of Refugee Resettlement (ORR) has historically been tasked to make geographical resettlement determinations for the resettlement of refugees. In doing so, the ORR has had the option to consult with and take into account the recommendations of the state and local governments when deciding where to settle refugees; however, states and localities were not authorized to determine the placement of refugees.

On September 26, 2019, President Trump issued Executive Order (EO) 13888, entitled Enhancing State and Local Involvement in Refugee Resettlement. The EO pertains to the "resettlement of refugees into American communities" and establishes a policy requiring the United States government to cooperate and consult with State and local governments on the matter of resettlement.

### CITY OF FIRCREST RESOLUTION NO.

### A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF FIRCREST, WASHINGTON, DECLARING AN INTENT TO GRANT CONSENT FOR THE RELOCATION OF REFUGEES WITHIN MUNICIPAL BOUNDARIES PER UNITED STATES EXECUTIVE ORDER 13888.

**WHEREAS**, the City of Fircrest is a welcoming and supportive community for those who have worked towards becoming productive members of the Fircrest community; and

**WHEREAS**, the City of Fircrest City Council recognizes the United States Executive Order 13888 of September 26, 2019, entitled "Enhancing State and Local Involvement in Refugee Resettlement," issued by the United States President, Donald Trump; and

WHEREAS, the City Council acknowledges that the Executive Order states that "the Federal Government...should resettle refugees only in those jurisdictions in which both the state and local governments have consented to receive refugees..." under the United States Department of State Reception and Placement Program; and

**WHEREAS,** the City Council wishes by this Resolution to set forth criteria clarifying the circumstances under which the City intends to provide consent to have said refugees resettled within its municipal boundaries; and

**WHEREAS**, the City Council recognizes the importance of maintaining the public health, safety, and welfare of its current residents; and

**WHEREAS**, the City Council further recognizes that to be successful, refugees resettling into Fircrest will require financial support, services and assistance; and

**WHEREAS**, the City Council acknowledges the role it can play in the resettlement program as part of a nation with a long history of welcoming and assimilating people from all over the world into its society; and

**WHEREAS**, the City Council desires to provide its consent for local refugee resettlement subject to the conditions and criteria identified herein. Now, Therefore,

### **BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF FIRCREST:**

Section 1. <u>Declaration of Intent</u>. The City Council of the City of Fircrest, Washington, declares its intent to give consent for refugee resettlement within its municipal boundaries upon certain conditions.

**Section 2.** <u>Criteria for Consent</u>. The City Council of the City of Fircrest, Washington, identifies the following criteria in order for refugees to be resettled within its municipal boundaries under the United States Department of State Reception and Placement Program: (1) the existence and adequacy of Federal, State and community support systems and structures in order to provide support for said refugees during their transition toward independence; (2) that local resources currently available to the City of Fircrest residents are not reallocated to mitigate resettlement program deficiencies; and (3) the Washington State Department of Social and Health Services will provide the City with an annual update on the resettlement program.

**Section 3.** <u>Reservation of Future Policy</u>. The City Council of the City of Fircrest, Washington, declares its reservation of the right to withdraw its consent in the future regarding these or other criteria necessary in order for the resettlement of refugees within its municipal boundaries.

APPROVED AND ADOPTED BY THE CITY COUNCIL OF THE CITY OF FIRCREST, WASHINGTON, at a regular meeting thereof this 28th day of January 2020.

**APPROVED:** 

Hunter T. George, Mayor

Executive Order 13888 of September 26, 2019

#### Enhancing State and Local Involvement in Refugee Resettlement

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. *Purpose.* In resettling refugees into American communities, it is the policy of the United States to cooperate and consult with State and local governments, to take into account the preferences of State governments, and to provide a pathway for refugees to become self-sufficient. These policies support each other. Close cooperation with State and local governments ensures that refugees are resettled in communities that are eager and equipped to support their successful integration into American society and the labor force.

The Federal Government consults with State and local governments not only to identify the best environments for refugees, but also to be respectful of those communities that may not be able to accommodate refugee resettlement. State and local governments are best positioned to know the resources and capacities they may or may not have available to devote to sustainable resettlement, which maximizes the likelihood refugees placed in the area will become self-sufficient and free from long-term dependence on public assistance. Some States and localities, however, have viewed existing consultation as insufficient, and there is a need for closer coordination and a more clearly defined role for State and local governments in the refugee resettlement process. My Administration seeks to enhance these consultations.

Section 6(d) of Executive Order 13780 of March 6, 2017 (Protecting the Nation from Foreign Terrorist Entry into the United States), directed the Secretary of State to determine the extent to which, consistent with applicable law, State and local jurisdictions could have greater involvement in the process of determining the placement or resettlement of refugees in their jurisdictions, and to devise a proposal to promote such involvement.

I have consulted with the Secretary of State and determined that, with limited exceptions, the Federal Government, as an exercise of its broad discretion concerning refugee placement accorded to it by the Constitution and the Immigration and Nationality Act, should resettle refugees only in those jurisdictions in which both the State and local governments have consented to receive refugees under the Department of State's Reception and Placement Program (Program).

**Sec. 2.** Consent of States and Localities to the Placement of Refugees. (a) Within 90 days of the date of this order, the Secretary of State and the Secretary of Health and Human Services shall develop and implement a process to determine whether the State and locality both consent, in writing, to the resettlement of refugees within the State and locality, before refugees are resettled within that State and locality under the Program. The Secretary of State shall publicly release any written consents of States and localities to resettlement of refugees.

(b) Within 90 days of the date of this order, the Secretary of State and the Secretary of Health and Human Services shall develop and implement a process by which, consistent with 8 U.S.C. 1522(a)(2)(D), the State and the locality's consent to the resettlement of refugees under the Program

EXNID

#### Federal Register/Vol. 84, No. 190/Tuesday, October 1, 2019/Presidential Documents

is taken into account to the maximum extent consistent with law. In particular, that process shall provide that, if either a State or locality has not provided consent to receive refugees under the Program, then refugees should not be resettled within that State or locality unless the Secretary of State concludes, following consultation with the Secretary of Health and Human Services and the Secretary of Homeland Security, that failing to resettle refugees within that State or locality would be inconsistent with the policies and strategies established under 8 U.S.C. 1522(a)(2)(B) and (C) or other applicable law. If the Secretary of State intends to provide for the resettlement of refugees in a State or locality that has not provided consent, then the Secretary shall notify the President of such decision, along with the reasons for the decision, before proceeding.

(c) Subsection (b) of this section shall not apply to the resettlement of a refugee's spouse or child following to join that refugee pursuant to 8 U.S.C. 1157(c)(2)(A).

**Sec. 3**. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department or agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

Office of Refugee and Immigrant Assistance 1700 East Cherry Street Seattle, Washington 98122-466

Mayor Hunter T. George 115 Ramsdell Street Fircrest, WA 98466 Email: <u>hgeorge@cityoffircrest.net</u>

### Re: Local Consent for Refugee Resettlement and Executive Order 13888

Dear Mayor Hunter T. George:

I am the Washington State Refugee Coordinator and I oversee the Washington Office of Refugee & Immigrant Assistance at the Washington State Department of Social and Health Services. My role is to collaborate with refugee resettlement agencies in Washington and to coordinate services by investing resources into local communities. In fact, last year the Office of Refugee & Immigrant Assistance granted \$28 million to 60 different organizations across the state to provide a broad array of services that help people to get living wage jobs, learn English, and eventually to become U.S. citizens. In this capacity, I consult regularly with the broad network of elected officials, public servants, community and faith leaders, businesses, and nonprofit organizations throughout Washington State who welcome refugees and assist in their resettlement and integration into our communities.

Welcoming refugees is an important part of who we are and what we do in Washington State, and we are stronger because of the value and vitality refugees bring as part of our communities and economies. I am grateful for your past participation in our state's critical work of refugee resettlement.

I write to you now to offer information and assistance in complying with Executive Order 13888, issued by the federal government on September 26, 2019. The Executive Order sets new procedures that the federal government, states, and localities must follow regarding resettlement of refugees who have legally been admitted to the United States by the federal government. One provision of the order adds a consent requirement upon states and localities as a condition precedent to receiving new refugees beginning in January of 2020.

Governor Inslee has signed the consent form on behalf of the State of Washington.

# Now Local Government Executives must also sign consent forms in order to be eligible to participate in refugee resettlement in the future.

As the Washington State Refugee Coordinator, my goal is to ensure that all localities that have participated in initial refugee resettlement in the past can and will be eligible to continue that participation in the future.

This is the right thing to do – for our communities, economies, and the individuals who have been granted legal refugee status by the federal government – and is consistent with the principles set forth in the Washington Law Against Discrimination, RCW 49.60.030(1) and 49.60.222, that prohibit discrimination on the basis of race, ethnicity, religion, or national origin.

Attached is a template consent letter that I ask you fill out and return to me. I am helping to coordinate the submission of all responses for the State and its localities to the U.S. Department of State and to the eight non-profit refugee resettlement agencies located in communities across the state that will seek and coordinate the funding from the U.S. Department of State. Early submission of these consent letters will be one indicator of the cooperation and coordination that exists in Washington State that makes resettlement so successful in our communities.

Because I have the duty to organize this process, I ask that you please take action as soon as possible to meet the internal deadline we have set for compliance. In addition, because we will all be coordinating with the refugee resettlement agencies to prepare for and welcome new refugees in many other ways, as well, and I am attaching a list of these organizations for your information and because they may also be reaching out to you to provide additional information.

Please submit your consent letter to me at <u>petersk@dshs.wa.gov</u>on or before December 20, 2019.

I am happy to provide any support or answer any questions you may have about this process.

Sincerely yours,

Sarah Peterson Washington State Refugee Coordinator

> STATE OF WASHINGTON Office of the Governor

November 5, 2019

The Honorable Michael Pompeo Secretary U.S. Department of State 2201 C Street NW Washington, DC 20230

RE: Consent for Refugee Resettlement Pursuant to Executive Order 13888

Dear Secretary Pompeo:

I write to affirm that the State of Washington wholeheartedly consents to welcoming and resettling refugees into our communities — a long and proud tradition that we intend to continue.

As the state that resettled the second highest number of refugees last year, we are honored to remain a place of safety and security for those fleeing persecution and violence. Since 1975, Washington has brought in nearly 150,000 refugees from 70 different countries, including Vietnam, Ukraine, and the Democratic Republic of the Congo. Refugees contribute to all sectors of our economy — as teachers, service members, doctors, and more — while adding to our rich cultural landscape. They are an integral part of Washington's past, present, and future.

Just last week, we celebrated the success of Dr. Anisa Ibrahim, a Washingtonian who resettled in our state after fleeing war-torn Somalia more than two decades ago. Only six years old when her family first arrived to the United States, Dr. Ibrahim later graduated from the University of Washington Medical School and now leads a pediatric clinic in Seattle — the same clinic that treated her when she and her siblings were children.

Her story is not unique. Throughout our state, children and families speak of similar circumstances, of having sacrificed everything to seek refuge in America from violence, starvation, and other horrors most of us will thankfully never experience. Many of those children are now leaders in our communities, bringing with them their unique perspectives on tragedy, perseverance, and triumph. Washington State is stronger and our communities are richer because of their important contributions.

Given all of the benefits of a robust resettlement program, we should not cast aside our founding principles as a nation. Enshrined on the Statue of Liberty, the "Mother of Exiles," is our

The Honorable Michael Pompeo November 5, 2019 Page 2

country's commitment as a safe place for humanity's most vulnerable. Lest we forget that, of the 26,000,000 refugees worldwide, more than half are children.

For these reasons, I ask that our state be allowed to accept at least as many refugees as we have in prior years, and should other states be unable or unwilling to accept refugee families into their jurisdictions, they will be welcomed here in Washington State.

I remain troubled by this Administration's deep cuts to refugee resettlement and disappointed that my call for a considerably higher number of refugees went unanswered. I hope you will recognize the success of our efforts in the coming year when your administration revisits the refugee cap for 2021.

Further, I have significant concerns about the imposition of written consent requirements upon states and local jurisdictions as a condition to receiving new refugees for resettlement through the U.S. Department of State's Reception and Placement Program. We will be working with our localities to ensure that they understand the written consent required of them under EO 13888, and to ensure uninterrupted refugee resettlement in Washington State, but we reserve the right to challenge the EO 13888 requirements in the future.

Very truly yours,

## Frequently Asked Questions on the U.S. Refugee Resettlement Program

### Contact: Sarah Peterson, Washington State Refugee Coordinator, 206-568-5568

### Nov. 21, 2019

The Washington State Department of Social and Health Services' Economic Services Administration's **Office of Refugee and Immigrant Assistance** helps to coordinate refugee resettlement across the state, and provides programs and services in communities to assist people who are refugees and immigrants in achieving economic stability and integrating into our communities. Washington has a long legacy of welcoming refugees. Since 1975, more than 150,000 refugees have resettled in communities across the state.

On Sept. 26, 2019, the federal government issued Executive Order 13888, setting new procedures that states and local governments must follow regarding refugee resettlement. ORIA has received a number of inquiries related to that proposed process and to refugee resettlement in our local communities. This document provides information on the federal refugee resettlement programs and the support provided to refugees arriving in Washington state.

# Who are refugees? What qualifications are required of refugees participating in the U.S. Refugee Resettlement Program?

Under Section 101 (a)(42) of the Immigration and Nationality Act (INA), a refugee is any person who is outside their home country and who is unable or unwilling to return to that country because of persecution or a well-founded fear of persecution on account of *race, religion, nationality, membership in a particular social group or political opinion*.

Individuals seeking admission into the United States as a refugee under Section 207 of the INA are processed through the U.S. Refugee Admissions Program (USRAP). The United States receives referrals to the USRAP through the United Nations High Commission on Refugees (UNHCR). Each year the President of the United States determines the number of refugees permitted to resettle in the United States and the priority participants dependent on three different priority categories. These priorities include (1) referrals from UNHCR, the U.S. embassy or specially trained non-government organization, (2) groups identified for special concern and (3) family reunification cases (family members in the U.S. submits an Affidavit of Relationship on behalf of a qualified family member overseas).

### What is involved in the U.S. Refugee Admissions Program?

The U.S. Refugee Admissions Program (USRAP) is an interagency effort involving a number of governmental and nongovernmental partners overseas and in the United States. USRAP is the process by which people overseas are identified and screened for resettlement in the United States. The Department of State/Population,

Refugees and Migration (PRM) has overall USRAP management responsibility overseas and has lead in proposing admissions ceilings and processing priorities. Under cooperative agreements with the Department of State (DOS), Resettlement Support Centers consist of international organizations or non-governmental organizations that carry out administrative and processing functions, such as file preparation and storage, data collection and out-processing activities. Once the application process is complete, the Department of Homeland Security (DHS), U.S. Citizenship and Immigration Services (USCIS) has responsibility for adjudicating applications for refugee status and reviewing case decisions. The International Organization for Migration arranges for travel to the United States, and the DHS U.S. Customs and Border Protection screens refugees as they arrive for admission into the country. A flow chart from USCIS that demonstrates the USRAP is linked in the Sources Cited section of this document on page 5.

#### What level of background screening is conducted to assure identity and lack of criminal background?

The screening of refugee applicants for the USRAP involves numerous biographic checks reviewed and resolved by U.S. government agencies. These screenings include the DOS Consular Lookout and Support System, Security Advisory Opinion, Interagency Check with the National Counterterrorism Center, FBI fingerprint check with Next Generation Identification, DHS Automated Biometric Identification System and DOD Defense Forensics and Biometrics Agency's Automated Biometric Identification System. In addition, highly trained USCIS officers conduct extensive in-person, overseas interviews with all refugee applicants. USCIS will also conduct screening through the Controlled Application Review and Resolution Process and enhanced screening that involves a review of classified and unclassified research and screening data against publicly available social media. U.S. Customs and Border Protection conducts additional background checks of individuals upon arrival at the U.S. port of entry. In recent years, federal agencies involved in USRAP conducted a joint review of the security vetting. As a result, USRAP has implemented a number of measures to strengthen its security and integrity. These new vetting procedures close security gaps and take a more risk-based approach to refugee admissions. For more information, please refer to the <u>USCIS Refugee Processing and Security Screening</u>. Additional resources are listed on the Sources Cited on page 5.

#### Where are refugees resettled? How is it determined which participants will be located in which communities?

Representatives from the national refugee resettlement agencies meet frequently to review the biographic information and other case records from the Department of State seeking to determine which local resettlement agency will sponsor the refugee family and place them in a local community. Many refugees have family or close friends already in the United States, and refugee resettlement agencies make every effort to reunite them. Other factors taken under consideration include the case size and availability of affordable housing, community resources, language capacity of the agency, local ethnic and religious communities and expertise resettling specific populations.

Washington state is home to eight refugee resettlement agencies that have a long history of resettling refugees. The agencies resettle refugees in Benton-Franklin, Clark, King, Pierce, Snohomish, Spokane and other counties. In addition, three agencies in Clark, King, Pierce and Spokane counties resettle Unaccompanied Refugee Minors.

## Office of Refugee & Immigrant Assistance Economic Services Administration | Community Services Division

In recent years, 75-90% of refugees resettled in Washington state have a family member living in a local community.

#### How does the agency gauge the capacity in terms of numbers for a host community?

Every year the local refugee resettlement agencies in Washington are required to consult the Washington State Refugee Coordinator who oversees Washington's Office of Refugee and Immigrant Assistance. The consultation process requires an approval to resettle a target number of refugees in their local community. Capacity is determined by the ability of the resettlement agency to provide or connect individuals and families to needed programs and services, affordable housing and employment opportunities. In addition, resettlement agencies are required to host quarterly consultations with local community representatives, including health care providers, school district representatives, volunteers and elected officials. This is an opportunity to hear from the community about the capacity to welcome new arrivals.

#### What happens after a refugee arrives in the United States?

Once a refugee arrives in the United States, they first participate in the U.S. Reception and Placement Program (R&P). This is conducted through a cooperative agreement between PRM and nine national Refugee Resettlement Agencies (RRAs). These nine agencies subcontract with local affiliates across the country to provide initial services to arriving individuals and families. R&P offers a one-time stipend per refugee to finance the first three months in the United States. This stipend is administered by the RRA and covers the cost of housing, household goods, food and other expenses. The individual or family is met at the airport by the RRA and with an appropriate interpreter. RRAs provide arriving refugees with a hot meal that reflects the individual or family's culture. For the next 30 to 90 days, the local RRA helps the individual or family to apply for a Social Security card, register children for school, arrange medical appointments and connect with the necessary social and language services. Refugees are eligible for public assistance when they first arrive. They receive employment authorization upon arrival and are connected to employment services and English language classes within the first 30 days after arrival.

#### What is the level of oversight and support provided program participants by your office and for how long?

After the R&P program, the federal Office of Refugee Resettlement provides resources to states to invest in ongoing support and services. The Washington Office of Refugee and Immigrant Assistance braids this funding with other federal and state dollars to provide services in four core areas: Refugee Health and Wellness, Employment and Training, Immigration Assistance and Naturalization Services, and Whole Family Services. ORIA invests approximately \$28 million annually into more than 60 different providers statewide. Providers include local community-based organizations, refugee resettlement agencies, others state agencies and colleges. The majority of programs and services (see the table below) are available to refugees for up to five years after their arrival in the United States. Some programs, including naturalization services, are available to individuals and families beyond the five-year time period.

The Department of State and the national refugee resettlement agencies conduct regular program monitoring and consultations with the local refugee resettlement agencies as well as the State Refugee Coordinator and State Refugee Health Coordinator to ensure compliance with the requirements of R&P.

# What follow up is proposed with the host community to gauge success of the program and address issues that might arise?

Local refugee resettlement agencies host quarterly community consultations. The State Refugee Coordinator and the State Refugee Health Coordinator attend these meetings to hear from the local community on the successes and challenges of the program. In addition, the State Refugee Coordinator hosts quarterly provider meetings to monitor program success. Each program is offered through a contract with a local provider. These programs operate with performance-based contracts that receive regular monitoring to ensure that participants are achieving the desired goals, whether it is employment placement or health screening and immunizations.

### Is there a formal process for consultation with your agency if issues arise?

The Washington Office of Refugee and Immigrant Assistance is always available for consultation if issues arise in the local community. For more information, please contact Sarah Peterson at <a href="mailto:petersk@dshs.wa.gov">petersk@dshs.wa.gov</a>. In addition, local refugee resettlement agencies and their national affiliates are available to respond to questions and concerns from community members and elected officials.
