Major Transportation Programs & Activities and Title VI Responsibilities

The City of Fircrest provides a range of transportation services including several ongoing programs, numerous Capital Projects, and coordination with surrounding jurisdictions and County programs. At any given time, projects may include roadway and/or pedestrian/bicycle improvements; larger projects are often preceded by pre-design studies. Current projects can be viewed on the City webpage and the current 6-year Transportation Improvement Plan (TIP) can be viewed on the City's webpage. The following is a brief summary of upcoming major transportation programs/projects.

Major Programs / Projects	Title VI Responsibility
Pedestrian, Non-Motorized These improvement projects are typically construction of new curb and gutter and sidewalk improvement. These projects will add new sidewalks where there presently are none. These projects also may include completing gaps between current sidewalks. Lastly, these projects may include adding or improving bike lanes along designated routes.	<ul style="list-style-type: none">• As funding is secured and specific projects move to design, project managers will use appropriate outreach and notification protocols for individual projects under this program.• The Public Works Director will oversee project managers and verify appropriate Title VI language and assurances are included in contracts / solicitations.• The Title VI Coordinator will report out in the Title VI Annual Report.
Roadway Improvements This program addresses priority traffic and pedestrian safety concerns on both arterial and local streets. Grind & Overlays The City's road surface maintenance is designed to maintain the City's roadway system within the limits of available funding. Roadway preventative maintenance is accomplished by using a combination of asphalt concrete overlays. Asphalt overlays are used to maintain the structure of arterial streets, with higher traffic volumes and higher wear. Each year, the City identifies streets that require maintenance. Part of this program, the City renews pavement markings, traffic channelization and signs and incorporates Complete Street elements.	<ul style="list-style-type: none">• Project managers will use appropriate outreach and notification protocols for individual projects under this program.• The Public Works Director will oversee project managers and verify appropriate Title VI language and assurances are included in contracts / solicitations.• The Title VI Coordinator will report out in the Title VI Annual Report.

FIGURE 1: 2021-2026 PROJECTS MAP

As listed in Table 1, Map 1 illustrates the transportation facility improvements for the 2021-2026 Six-Year Transportation Improvement Program planned for the City of Fircrest. Below is a brief description of the work for these projects.

Grind and Overlay

A grind and overlay project consists of grinding the existing pavement down a few inches and overlaying the roadway with a new wearing surface. This is a way to preserve the existing roadway and provide a new wearing surface and seal the roadbed.

Roadway Improvements

This is a reconstruction of the existing roadway. The roadbed is removed and replaced with new material and a new pavement section. This work also includes replacing or adding curb and gutters and sidewalks along both sides of the roadway or where they do not exist.

Pedestrian, Non-Motorized

This improvement is typically construction of a new curb and gutter and sidewalk improvement. This will add new sidewalks where there presently is no sidewalk and also complete gaps sidewalks. This also provides for bike lanes along designated routes.
