

2025 Maintenance Activity Update

Leach Creek Stormwater Holding Basin

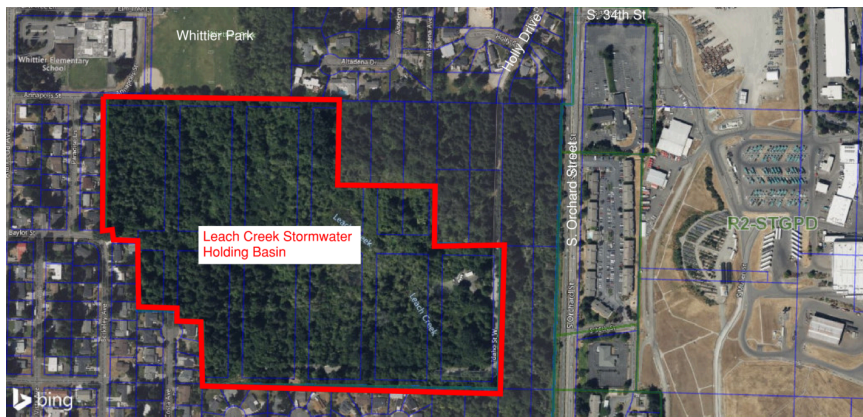

City of Tacoma
Environmental Services Department
326 East D St.
Tacoma, WA 98421

We are writing to inform you that construction work for the 2024 maintenance project at the Leach Creek Holding Basin will be resuming in June 2025. This project was temporarily delayed and will now proceed as originally planned.

For the safety of the public and contractors we ask you stay clear of this area while we complete the required maintenance activities. We anticipate this work to be completed by October 2025.

We appreciate your patience during construction and look forward to the completion of these maintenance improvements.

If you have any questions or concerns regarding this project and would like additional information, please feel free to contact:

Project manager - Steve Hoffman
