

WHITTIER ELEMENTARY CONSTRUCTION PROJECT MAY 2025 UPDATES

Initial Survey and Planning Work Underway at Whittier

Next week, Apex Engineering will begin site preparation work at Whittier Elementary School as part of the new construction project. Their work includes surveying the land and planning systems like drainage, roads, and utilities. This early-phase work helps lay the groundwork for a safe and efficient building process.

Whittier Design Advisory Committee Begins Meeting in June to Help Share the Design of the Future School

Starting in June, a Design Advisory Committee (DAC)—made up of Whittier teachers, staff, parents, and community members—will begin meeting to help shape plans for the new Whittier Elementary School. Their ideas will guide design decisions as construction gets underway.

This collaborative effort reflects the district's commitment to inclusive planning and ensuring that school communities have a voice in shaping the spaces where students thrive.

Design-Build Team Will Spend Day at Whittier

On June 6th, the architect and contractor team working on the new Whittier Elementary will spend a day at the school to meet students and staff. This visit will help them better understand what a typical school day looks like and design a space that truly supports learning and community. It's a chance for the design-build team to see Whittier in action and connect with the people who will use the new building every day.

Plans for Whittier

Whittier's replacement project is scheduled for construction between 2025-2027. During this time, students and staff will remain on campus, continuing to learn and grow while their new school is built.
