

# SUMMER CAMPS

## NAPOLOGY CAMPS IN FIRCREST

CAMPS HELD AT ROY H MURPHY COMMUNITY CENTER

**KinderBots Robotics** June 23 – 27 9 am – 12 pm

Children will explore the basics of robotics by building fun, interactive models. From magic wands with sensors to helicopters powered by gears and pulleys, they'll dive into how technology brings creations to life while having a blast!

**Mining & Building** June 23 – 27 1 – 4 pm

Hey gamers, are you ready to travel all the way to The End with Snapology? Join us as we bring the game of Minecraft® out of the computer and into the real-world. Campers will go on adventures using their imaginations - designing worlds full of mobs, animals, buildings, and LEGO® Minecraft® characters.

**Combat Robots** June 30 – July 3 9 am – 12 pm

Build, Battle, and Win: Robot Combat Challenge!

Campers will design and build their own robots, then put them to the test in football games, hoop challenges, and head-to-head battles—all while learning key engineering skills! It's all about teamwork, creativity, and friendly competition!

**Animation Studio** June 30 – July 3 1 – 4 pm

In Snapology's Animation Studio, campers team up to create their own stop-motion movie using LEGO® mini-figures or toys from home. Working with a partner, they'll build sets, develop a story, animate scenes, and edit their film—then share it on Snapology's YouTube channel to share with friends and family!
