RE: Application Status of The Cottages at Fircrest

Dear Citizens and Interested Parties,

The City of Fircrest is providing an update regarding the proposed development known as The Cottages at Fircrest. As a reminder, The Cottages at Fircrest was a proposed 92-unit cottage housing development on approximately 36 acres, with roughly 19 acres anticipated to be disturbed. The project was located within the city limits of Fircrest, Washington, off Orchard Street.

In early 2026, the City received confirmation from the property owner that it remains open to perspective buyers and is not committed to or contracted with any particular buyer or developer. The Cottages project was presented to City Council in September 2025 and to Planning Commission in January 2026, with no formal application for its development having been submitted to the City to date. Any future application for development of the site would be noticed as appropriate, at which time the City would expect to have more detailed material available to produce for interested parties.

The City appreciates the community's interest in this proposal.

Thank you,

Danielle O'Galleher | Permit Coordinator
